Solutions for Your Workspace
& Storage Needs

Our Services

Our commitment is to assist you in every step of the process, from the initial planning stages to the finished installation.

Site Planning and Room Layout:

Send CATT your project requirements and room dimensions, we will utilize our 45 years of experience and assist you in achieving the most effective use of your space.

Custom Product Design:

CATT has a product line of over 5000 products to meet your facility's needs. If you can't find exactly what you are looking for, contact us. Our unique ability to design and custom manufacture products is affordable and provides you with the perfect fit.

Factory Trained Installation:

Whether you're in the Mountain States, CATT can provide you professional installation services. Contact our customer service department for a free estimate.

About CATT llc...

- We market to a diverse customer base offering storage and work place solutions for industry, education, government, and healthcare. With over 5000 furniture and training equipment related products, we offer solutions that other companies cannot. From welding and cosmetology labs to modular storage cabinets and automotive workstations, we have the products to meet your requirements.
- Our company has been family owned and operated for over 20 years with a dedicated team of industry professionals. Our commitment to our customers through service and product quality is a symbol of pride throughout our organization.
- Military training facilities, public educational schools, technical/vocational training centers, and leading auto engine manufacturing plants are all examples of where CATT products are relied upon across the country.

How We Stand Out

Made In The USA

GMI our manufacturer proudly manufactures all our products in Chelsea, Michigan. With conviction, they also source the materials that go into our products from USA Made suppliers.

Armor Edging

Our spray-applied edging is used by utility vehicle builders as bed liner, and is extremely durable. The edging will not separate from the core material, which means no more cracking, peeling or chipping the edges of your desks, tables, and workstations.

Casters

CATT products with casters give you the ease of mobility down hallways or just across the room. Our casters also have locking brakes so the furniture will stay in place and not roll away.

Fully Welded Construction

GMI's products are made to be durable and protect what you place on and inside them. This is why our bases are made from fully welded components. Strong, long lasting, and safe.

Adjustable Height

Our adjustable height models allow the user freedom to raise and lower the desk height to the most comfortable and ergonomic position.

ADA Compliant

Our designers take into consideration wheelchair users by ensuring the dimensions for wheelchair accessibility are met, not only for desks but between desks as well.

Security

Protect your valuable equipment and personal belongings with our available security options. Many of our drawer and cabinet door options are available with durable keyed cylinder locks. Safe, reliable, and secure.

Warranty

Our products are backed by a limited lifetime warranty. This warranty applies to the original purchaser only. For CATT's full warranty and exceptions, see terms and conditions on page 39.

Laminate & Metal Finishes

Color combinations shown are our most popular laminate and metal finishes. See page 38 for more options.

Computer Desks and Tables Designed with Your Needs in Mind.

The way a lab is furnished contributes not only aesthetically to the learning environment but must also provide functionality, durability and appeal for the students and instructional staff. In today's learning environment space and time are expensive and utilization of the limited space is critical in lab planning. Our designers have looked at many aspects of lab furniture design and have incorporated those into our computer workstation products while keeping durability, simplicity, and cost effectiveness at the forefront. From their efforts, our team has developed our current product line to incorporate several styles that will offer an exceptional value and outstanding quality.

PC Series In-line Workstation

shown with optional accessories

shown with optional accessories

Fixed Height Workstation

Adjustable Height Workstation

Our standard PC in-line computer workstations are a perfect choice for computer labs and stand alone work stations. The PC Series is packed with features, such as all welded leg assemblies from heavy gauge tubular steel, lower rear modesty panels, and 4" x 4" full station width wire management trays. Laminate work surfaces feature a 1/4" thick high pressure laminated MDF core with our durable Polyurea spray applied Armor Edging. All tops feature a balance backer sheet. See color chart for standard and available color options. Work surfaces feature (1) 3/4" round hole grommet access for tables up to 48"W. Tables 48" and above have (2). Available in standard 28"H desk and 34"H lab heights. Adjustable height models adjust from 24"H to 34"H. Height dimension listed is to bottom of work surface, for overall working height add 1/4" for thickness of top.

PCB-700 Series Workstation

shown with optional accessories

The PCB-700 series features a full height wire chase compartment that is ideal for concealing network cabling and power cords. Under work surface supports and sliding front access to the wire chase are standard. Chase is accessible from all sides, including the floor. The welded base is constructed of 16 gauge steel tubing. Laminate work surfaces feature a $\frac{1}{4}$ " thick high pressure laminated MDF core with our Polyurea spray applied Armor Edging. All tops feature a balance backer sheet. See color chart for standard and available color options. Work surface has 4" back and end stops to keep all items within the work area. The large $\frac{3}{4}$ " hole grommet is large enough for all cables, but small enough to keep out unwanted debris. Height dimension listed is to bottom of work surface, for overall working height add $\frac{1}{4}$ " for thickness of top.

Popular Laminate & Metal Finishes

CF Series Workstation

shown with optional accessories

The CF series all laminate workstation is a great solution for any computer classroom. The stations are designed to link together to form rows using starter and add on stations, sharing components saves space and cost. Laminate leg assemblies have a durable metal base and are constructed from 1" panels laminated on both sides. Laminate work surfaces feature a 1/4" thick high pressure laminated MDF core with Polyurea spray applied Armor Edging. Full width wire management trays are accessible from the top and underside of the station to conveniently store power and data cabling. Our CFC series adds a desktop carrel that provides a private and quiet work space for students. The carrel top provides 14"h side and back panels and is designed to link together just like the standard CF series.

SRI Series Flip Desk

shown with optional accessories

The SRI flip top computer workstation offers a simple and clean solution for multi-purpose classrooms. The flip up monitor design stores a flat panel monitor out of sight when not in use. This allows the work surface to be clear for writing and lecture. To expose the monitor simply extend the keyboard and the monitor rotates up, push the keyboard back in and the monitor returns to its closed position. The station is complete with a wire management tray to solve the problem of unsightly power and data cables. All welded base frame components and heavy gauge steel panels, 1" thick laminate work surfaces, and our durable Armor Edging form a superior work station. Height dimension listed is to bottom of work surface, for overall working height add 1" for thickness of top. A non-flip top standard work surface is also available.

shown with optional accessories

The TG classroom work table offers a contemporary solution for computer classroom workstations. A sturdy 2" tubular vertical column with an arched base and floor leveling glides. All welded base frame components. Height dimension listed is to bottom of work surface, for overall working height add 1/4" for thickness of top. Optional rear modesty panels with integrated wire management tray keep the workspace tidy. Available in an adjustable height or mobile version. The flip top version allows the work surface to be stored in a space saving vertical position. A single handle release is located under the work surface for easy one person use.

Desks Engineered to Inspire Creativity.

CATT's drafting tables combine heavy-duty construction with strategically placed features into a functional workstation, allowing the user comfort and space to create. Our selection of standard drafting tables along with various forms of CAD/drafting tables allow for many layout options to fit your specific environment. We offer many different configurations of cabinets that fit under your workstation for added storage and organization.

Drafting tables are assembled from fully welded 16 and 18 gauge steel bases. On most models you have the option of a fixed 7 degree or a 10 position adjustable drafting surface.

The integrated wire management keeps excess wires neatly stored and out of the way allowing for easy maintenance. Each station features a 1 1/4" thick laminate work surface, 1" drafting surface and is offered with 3mm PVC sides.

Presentation Carts Designed for Organization.

Presentation carts are the perfect addition to any classroom. The mobile stations provide instructors an unobtrusive work area for teaching and lecture, rather than placing their main desk front and center of the classroom. Our carts are constructed from high quality laminate and steel bases to insure durability no matter how often your carts are moved around. Lockable cabinets give you peace of mind that your A/V equipment will stay safe and secure. We also offer four carts that are more individualized with the same durability and mobility in a smaller version.

SR Series Mobile Instructor Stations

SR-200 Model

SR-400 Model

SR-7000 Model

Popular Laminate & Metal Finishes

The SR-200 Mobile Instructor Station is a well-designed unit that is at home in any classroom, lecture hall, or meeting room. Among its standard features is a large work surface with a 7" privacy shield, 1 $\frac{1}{4}$ " laminate surface with armor edging, 4" locking dual wheeled casters, pull-out keyboard tray and a CPU rack with back cable guard.

The SR-400 Mobile Instructor's Station offers the benefit of a tower lectern attached to a convenient desktop. This station features a solid 1 $\frac{1}{4}$ " laminate surface with armor edging and a 6"h back panel. Lockable/vented CPU cabinet and large lockable storage drawer/ door help to keep your items secure while in movement. 4" locking dual wheeled casters, a pull-out keyboard tray and a raised lecture platform are some other great features of this station.

The SR-7000 Series Presentation Cart offers great features for an economical price. Cabinet base can accommodate standard CPU configurations or with the adjustable shelf, the unit is perfect for laptop use and storage. This cart has sturdy construction with lockable swivel casters. Lower storage compartment is vented with a locking door and available with power outlets. The pull-out locking drawer securely stores most presentation devices. Wire management allows for easy connection of AV components. Optional side table extension adds additional work surface space.

Accessories and Options

Accessories allow you to modify your desk with casters, keyboard trays, CPU racks, and other items to add comfort and convenience. Be sure to ask about the accessories when ordering, since not all accessories are compatible with all of our furniture.

KBD-100

Pullout Keyboard Drawer

KBD-110

Pullout Keyboard Drawer & Mouse Surface

KBD-120 (pictured)

Pullout Keyboard Drawer, Mouse Surface, & Pencil Tray

This drawer features a palm rest, and multi-position keyhole mounting brackets that allow a variety of heights of installation. Ball bearing slides for easy opening and closing. Keyboard platforms will reduce leg space under desks.

KBT-300

Keyboard Tray and Mouse Pad

Simply lift the keyboard tray to desired height, press down to lock into place and within seconds your keyboard is at the perfect height. A tilt mechanism has been added for maximum wrist comfort. This tray is constructed from all steel and features 3 zones of comfort for unique height settings. Keyboard platforms will reduce leg space under desks.

LTD-500

Locking Laptop Drawer (pictured)

LTD-538

Locking Laptop Drawer with Mouse Pad

This is a safe storage area for oversized laptops and notebooks. Constructed from 16 gauge metal in a standard black finish. Ball bearing, 16" full extension drawer slides for smooth rolling action and spacious cord management. Locking mechanism mounts on either the right or left side, 2 keys are included. Drawer platforms will reduce leg space under desks.

PD-300

Locking Pelican Drawer

This locking pelican drawer is 19.25"W x 23.75"D. Its front section features a multi-compartment organizer. The rear section has a 10"D compartment perfect for securing a laptop, tablet, purse, or other valuables. Drawer will reduce leg space under desks.

PD-200 (pictured)

Pencil and Paper Drawer

This pencil drawer is 22.75"W x 21"D. Made with ball bearing metal glides and a multi-compartment plastic base. Drawer will limit leg space under desks.

PD-100

Drop-In Pencil Tray

The 5 compartment plastic organizer tray drops into an existing drawer. Dimensions are 13"W x 5.75"D x 1"H.

DTCPU-400

Swivel/Slide CPU Holder

The swivel CPU rack attaches to the underside of a work surface and accommodates most towers. A locking steel clamp secures the CPU into place on all sides. The CPU slides in and out on a glide track that can support up to 45 lbs. This CPU can rotate 360 degrees for access to the rear of the CPU. CPU holder will reduce leg space under desks.

DTCPU-200

Stationary CPU Rack Our in-house made secure

CPU holder elevates your computer providing more floor and workspace. It is constructed from a sturdy 12 gauge steel mount that attaches to the side of a cabinet holding the CPU in place with Velcro straps. CPU holder will reduce leg space under desks.

DTFPMA-100

Flat Screen Monitor Arm

Simple adjustment with 360 degree swivel and extended arm, makes this an easy, and cost effective choice. Model includes both clamp and grommet mount.

DXMA-100 (Single Monitor)

DXMA-200 (Double Monitor)

DXMA-300 (Triple Monitor)

Our deluxe line of multi-pivot monitor arm components are made of aluminum alloy castings that have a stylish look and feel. Optimize your viewing angle, focal depth and monitor height with a wide range of motion. Comes standard with a sturdy clamp mount.

COM-200 (pictured)
Surface Comport Mount

COM-300
Edge Comport Mount

The communication mounts are a simple solution for power and data access. 2 power receptacles and choice of RJ45, RJ11, or USB data jacks. An Access door conceals receptacles when closed and conveniently slides out of site when open.

E-8W

Our multi-configuration 8 wire electrical system is a multi-circuit, 8 wire power system built for ultimate capacity and field reliability; a powerful solution that has become an office furniture industry standard.

PS-150M (Metal)

PS-150P (Plastic)

6 Outlet Power Strip. Lighted on/off switch and 15A breaker with reset. UL listed.

PA-48AL
8 Outlet Power Apron

Aluminium housing. Lighted on/off switch and 15A breaker with reset. Clamp mounted. UL listed.

PS-15USR

Surge Protected Power Strip

The 12-outlet power strip features an 8' cord and a 4320 joule energy rating that provides superior power protection. 8 rotating and 4 stationary surge-protected outlets provide convenience and flexibility; 1-in, 2-out RJ11 telephone/fax surge protection and coaxial protection.

REL-100

Retractable Power Cord Reel

Getting power to your mobile carts just got easier. Our reel has a 30' retractable cord and 3 grounded outlets, rated at 125V/10A/1250W.

CSTR-4

Stem Caster with Brake

Nylon casters offer designer styling combined with economy. Independent wheel rotation adds to its already high controlled mobility from deep pile carpeting to slick tile. Available in 4".

AL-PR

Mobile Parallel Straight Edge

Nylon rollers are mounted to the blade giving this straightedge frictionless movement. The rollers retract on touch, securing the blade for accurate drawing. Acrylic edges are elevated to prevent ink smears. Sized according to workstation drafting board.

AL-VB

Green/Cream board covers

This Borco Board is the perfect stain-resistant work surface. Compass points, tacks and hard pencil impressions will not mar this VYCO-protected surface as a self-sealing will recover almost immediately. Preserves and protects the drawing surface and will not deteriorate, discolor or crack. Sized according to workstation drafting board.

STRLED-18, 24, 36
LED Task Lighting

Convenient energy saving task lighting options. Metal body construction with on/off switch located on the fixture. Light operates on 120v. 9' long power cord and mounting hardware included. Comes in 18", 24", or 36" size options.

STRFLO-24, 36, 48
Fluorescent Task Lighting

Easy to mount, these light strips come with an on/off switch and a white ribbed acrylic lens. Housing is metal with a white finish and has two mounting slots (mounting hardware included). Lights operate on 120 VAC. 5' cord and three-prong plug are standard. Comes in 3 different sizes, 24", 36", and 48".

PC Hanging Storage Cabinets

The PC hanging cabinets mount on the underside of the work surface for additional and secure storage. Constructed of 18 gauge steel with ball bearing drawer glides. Cylinder style locks are keyed alike and keep your contents safe and secure.

Model Number	Description	Size
PC-5030	Single Door	16"W x 16"H x 20"D
PC-5330	Two Drawer	16"W x 16"H x 20"D
PC-5230	Three Drawer	16"W x 16"H x 20"D
PC-5130	Four Drawer	16"W x 16"H x 20"D

COM-200 - Data and Power Port

Transform your office and classrooms with hutches, carrels, returns, and risers that will add new functionality and extra storage to your workspace.

***Be sure to ask about the options when ordering, since not all options are compatible with all of our furniture. Contact dealer for more information.**

Carrels

Adding a carrel to our single stations is ideal for testing or training environments. Several options are available to help fit your needs. The clear view plexi back option allows for teachers to visually monitor students during testing. A keyboard holder can be attached to the inside of the privacy panel, giving students more room to write when not in use. CPU holders can also be added.

Carrels are ordered as a complete assembly (Top, side panels and back panel). Retrofitting an existing desk will require replacing the original top.

Available in 12", 18", and 24" heights.

Hutches

Hutches are great for open and concealed storage in a space saving vertical design. Constructed from 3/4" laminate it will look great with any instructor station. The hutches are offered with doors, just shelving or a combination of both. Under cabinet lights and tack board panels can be added for additional options. Just a few different ways to personalize your office to what suits your needs and your budget.

Upper Work Surface Riser Shelf

The addition of a work surface riser shelf easily adds valuable desktop space to any workstation. The risers height and depth can be customized to best fit your work areas needs. Risers can be made in an open design or enclosed for added privacy. Adding risers not only gives you added desk space, it also gives more options for adding lighting, power, and data accessories.

Workstation Returns

Returns are perfect for doubling your work surface without taking up a lot of room. They attach easily to an existing single instructor desk to create an L shape configuration. The return also allows mounting of additional under worksurface storage cabinets.

Standard Metal Finishes*

Special color matches are available upon request. Some colors may be subject to a custom blend charge.

Popular Laminate Finishes*

CATT can provide laminate color selections from most major suppliers. Please contact CATT for current availability and lead times.
*Colors represented on this page are “closest match” due to printing constraints. Actual color samples are available upon request.
